UNITED STATES DEPARTMENT OF AGRICULTURE  
BUREAU OF AGRICULTURAL ECONOMICS  
WASHINGTON, D. C.

February 27, 1948

MONTHLY EGG PRODUCTION, 1946-47

Egg production in the United States in 1947 was 4,608 million dozen, about 1 percent less than in 1946, the Bureau of Agricultural Economics announced today. A 3 percent reduction in the average number of layers on hand during the year was mostly offset by a 2 percent increase in the rate of egg production per layer.

Increases in egg production in the North Atlantic and East North Central States mostly offset decreases in all other parts of the country.
